

## CURRICULUM VITAE

### DR. STEPHAN WINTER

Stephan Winter is the Head of the Plant Virus Department and Chief Plant Virologist at the Leibniz Institute-DSMZ, German Collection of Microorganisms and Cell Cultures. The DSMZ plant virus department houses an extensive collection of plant virus isolates and antisera for reference and diagnostic purposes, offering diagnostic services for virus identification, ranging from bioassays to next-generation sequencing.

Dr. Winter's research focuses on characterizing plant diseases caused by viruses, particularly those affecting tropical root and tuber crops. His specific interest lies in *Bemisia tabaci* vector-transmitted viruses and virus diseases of cassava. Translational research projects in his laboratory connect fundamental studies on virus discovery, gene function analysis, and identification of virus resistance with field research on virus epidemiology and ecology in Africa and other tropical regions. His group played a crucial role in identifying virus resistance against cassava mosaic viruses in Africa, and recent breakthroughs led to the discovery of resistance against the severe cassava brown streak viruses. The new sources of virus resistance developed in his lab now offer broad-spectrum protection, and Dr. Winter actively contributes to their implementation in the field.

Dr. Winter maintains global connections with agencies focused on plant health, collaborating with international research partners on virus resistance deployment, diagnostic protocols, emerging diseases, and plant health issues. He has served as an expert on the Plant Health Panel of the European Food Safety Authority and offers consultancy, support, and advice to both public and private institutions.

### PROFESSIONAL EXPERIENCE

1995 to date GERMAN COLLECTION OF MICROORGANISMS & CELL CULTURES, GERMANY

**Head, Plant Virus Department & Chief Virologist**

1994 to 1995 FEDERAL DEPARTMENT OF AGRICULTURE, NIGERIA

**World Bank Advisor to the National Plant Quarantine Service**

1989 to 1993 AGRICULTURE CANADA RESEARCH STATION VANCOUVER, CANADA

**Plant Virologist**

### EDUCATION

1988 Ph.D. (Dr. agr.) UNIVERSITY BONN, GERMANY

**Plant Virology**

**LANGUAGES** ENGLISH (fluent), FRENCH (good commun. competence), GERMAN (native)

## RESEARCH FOCUS

### VIRUS DIAGNOSIS R&D

- test kits and protocols for plant viruses diagnosis
- virus and viroid indexing routines for the safe movement of germplasm
- virus variability and pathogen population composition
- new viruses and newly emerging virus diseases

### VIRUS DISEASES OF TROPICAL ROOT & TUBER CROPS & BANANA

- new viruses and newly emerging diseases
- test kits and protocols for rapid virus detection under field conditions
- virus biology and structure of virus populations
- virus surveillance and monitoring in tropical environments

### VIRUS/-VECTOR INTERACTION

- factors contributing to transmission of viruses by insect vectors
- modelling virus invasion with insects

### VIRUS RESISTANCE & BIOTECHNOLOGY

- transgenic resistance in plants using pathogen derived sequences
- functional elements of natural virus resistance in plants

## RESEARCH PROJECTS

- Bill and Melinda Gates foundation Project "NextGen Cassava; Advancing CBSD resistance development in Cassava" (2019-2024).
- Bill and Melinda Gates Foundation Project "Enabling tools for cassava and yam virologists" (2017-2019).
- Bill and Melinda Gates Foundation Project "New Sources of Resistance against Cassava brown streak virus in Cassava (2014-2019).
- EU Project (Food Security Thematic Programme (FSTP) „Adapting clonally propagated crops to climatic and commercial changes“ (2011-2016).
- NSF Programme (BREAD) "Engineering broad-spectrum resistance against multiple geminiviruses and cassava brown streak viruses using synthetic trans-acting small interfering RNA (tasiRNA)" (2011-2015).
- BMZ/GIZ Project "Beating Begomoviruses: Better livelihood for farmers in tropical Asia" (2012-2015);

## WORKSHOPS & SEMINARS

- Training courses in tropical plant pathology and virology; molecular techniques in plant virology; serological diagnosis of viruses in nurseries and field; basic plant virology & molecular virology; virus bioinformatics; modern approaches to plant virus diagnosis; diagnosis of pathogens and viruses in tropical food crops; options for virus disease control; strategies to combat cassava virus diseases. Vietnam (2013), India (2013), Kenia (2012, 2016, 2018), Dr Congo (2014, 2016, 2017, 2021), Sudan (2014, 2016, 2017, 2018, 2019) Benin (2018), Rwanda (2020), Brazil (2020).

## THESIS & RESEARCH SUPERVISION

- Ph.D. students (>15 since 1995) at the DSMZ laboratory
- International Ph.D. students during short term courses and as external supervisor – (>25 since 1995)

## PLANT HEALTH CONSULTANCY

- Establishment of pathogen indexing routines in a private nursery for citrus and mango, infrastructure development, training and human resource development, establishment of plant health routines for nursery materials, elimination of fungal pathogens in mango and citrus, identification of pathogens in fruit trees and date palm, development of iso-conform certification schemes (Khartoum Sudan 2017-2019)
- Establish phytosanitation procedures and monitoring measures to eradicate cassava brown streak viruses from regional outbreaks in South Kivu (Idjwi, Bukavu, DR Congo 2016 ff). Development of plant health regimes to produce virus-free planting material, monitor local virus outbreaks and guide control measures implemented by the farming community (Plaine de la Ruzizi, DR Congo 2017ff).
- Establishment of virus elimination methods and plant health regimes to produce healthy, virus-free rootstocks of fruit trees *Prunus* and *Malus* (Greece, 2021ff).

## MEMBER OF ADVISORY COMMITTEES, EDITORIAL BOARDS

Member of PLH working groups on Pest risk assessment (PRA) of viruses and viroids of quarantine concern to Europe, ongoing. Co-author of EFSA PRA documents and scientific opinions on the risk to plant health posed by pathogens in particular viruses and viroids.

Member of the EFSA PLH Plant Health Panel, 2009- 2019.

Editor-in-Chief, Journal of Plant Disease and Protection; Associate Editor, European Journal of Plant Pathology (2016-2021).

Reviewer of projects and grant proposals related to plant pathology and virology topics for National Science foundation (NSF, USA); Bill and Melinda Gates foundation; German Research Fund (DFG, Germany), Alexander von Humboldt Foundation (Germany), BARD (BARD US-Israel Agricultural Research and Development Fund).

## MEMBERSHIP IN PROFESSIONAL SOCIETIES

American Phytopathological Society  
Deutsche Phytopathologische Gesellschaft  
Society for General Microbiology  
ATSAF Council for Tropical and Subtropical Agricultural Research
